

Chip and Dale - Thank you for representing Mom in the sale of her house. When this all started in May when she was admitted to the hospital, and then a nursing home, I realized that she couldn't live alone any longer. My first thought was "How do I get this house sold in California while I'm in Illinois?" I called Mom's lawyer, Chris Zucconi, and he recommended you to assist with the sale of the house. After our first phone conversation I felt comfortable with your suggestions and was ready to proceed. But I felt that the biggest hurdle would be how well Mom would respond to you and your plans. After you talked with Mom initially, I called her to see what she thought of "her realtor". She was very happy with you and satisfied with your approach to the sale of the house. This was a huge relief for me. During the entire process of the sale of the house you kept me well informed and explained every step of the process so well that I felt as comfortable as if I was dealing with a realtor close to home in Illinois.

Thanks again Chip and Dale for making what appeared to be a very difficult problem actually turn out to be a pleasurable experience. Both Mom and I are very appreciative of your knowledge and attention to detail and would be happy to recommend your services to anyone needing a realtor in the San Diego area.

Sincerely,  
Lyle Landstrom
